Winter-Spring 2008 Newsletter

MESSAGE FROM THE PRESIDENT

*H*aving recently returned from the SAR Leadership Meeting in Louisville, I am pleased to inform the Ohio Society that we will be proceeding with the plans outlined in the Winter 2008 SAR Magazine, beginning with the acquisition of the Fulton-Conway Building on Fourth Street in the museum area of Louisville. There is still much work to do before our new Headquarters will be a reality, but the important first step is now behind us. I hope the Ohio Society members will strongly support this significant program.

Reports from Ohio's chapters indicate continued vital programs across the state. The Marietta Chapter is sponsoring a week long program of historical and genealogical meetings at the end of March. They will promote membership in the SAR, DAR, CAR, and other lineage related groups. Ohio's Central District will host a planning seminar on March 29 in Lancaster for prospective members, in hopes of starting a new chapter. The Ebenezer Zane Chapter in St. Clairsville has produced a DVD on the acquisition and installation of Patriot Grave markers as part of its extensive graves program. Western Reserve Society celebrated Washington's birthday with a luncheon for over 200 attendees who heard a presentation on the expansion of the facilities at Mt. Vernon by its Executive Director James Rees. Congratulations Ohio Chapters for sponsoring these SAR outreach activities.
